

INTELLIGENT SUPPLIER VETTING

In partnership with Altius VA Ltd; SSS offers an Intelligent Way of appraising 3rd party Service Providers, utilising the Altius Exigo Essentials + software

This **interactive cloud-based system**, automates Supply Chain management, which is subsequently managed and vetted by the SSS team, covering, Financial stability, Insurance, Operational delivery, Quality and Health and Safety. Once Service Partners are initially vetted; via the Exigo Platform, SSS will ensure insurances, memberships and accreditations remain up to date as required.

Exigo auto generates and issues **custom**, service specific questionnaires, allowing Service Partners to remotely access and complete with ease, alerting the SSS team as and when responses are generated. The SSS team will **independently** assess each response aligned to

Legislative and Contractual requirements.

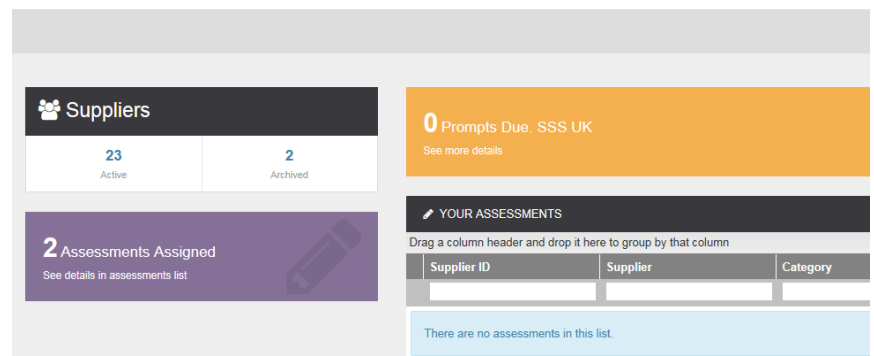

Exigo automates communication between SSS and Service Partners by auto-issuing emails requesting updated information in a **'hands-off'**, efficient and timely manner.

Questionnaires are **bespoke** to service disciplines, for which there are 100's of services to select from across, FM and Security, resulting in a much more **granular** appraisal process. **Fully auditable**; Exigo offers complete transparency on all activity..

'Finger-tip' reporting and live **dashboards** provide invaluable information across all areas of the appraisal process, providing clear **visibility** to both SSS and their Customers.

- ✓ **Automated process flows**
- ✓ **Custom process flows**
- ✓ **Dashboards**
- ✓ **Automated Report Generation**
- ✓ **Cloud-based solution**
- ✓ **In-build audit trails**
- ✓ **Real-time reporting**

Dashboard

The dashboard shows a 'Suppliers' section with 23 Active and 2 Archived suppliers. A yellow banner indicates '0 Prompts Due: SSS UK'. Below, the 'YOUR ASSESSMENTS' section shows a table with columns for Supplier ID, Supplier, and Category. A message states 'There are no assessments in this list.'

Commercial
